

Interval Data Sheet

Student: _____ **Observer:** _____

Behavior: _____

Date: _____ **Start Time:** _____ **End Time:** _____ **Interval Length:** _____

/ = %

Behavior: _____

Date: _____ **Start Time:** _____ **End Time:** _____ **Interval Length:** _____

/ = %

Behavior: _____

Date: _____ **Start Time:** _____ **End Time:** _____ **Interval Length:** _____

/ = %

Behavior: _____

Date: _____ **Start Time:** _____ **End Time:** _____ **Interval Length:** _____

/ = %

* Partial-Interval: Mark (+) if the behavior occurred at any point during the interval; record (-) if the behavior did not occur at any point during the interval.

* Whole-Interval: Mark (+) if the behavior occurred throughout the entire interval; record (-) if the behavior did not occur throughout the entire the interval.

* Momentary: Mark (+) if the behavior was occurring at the end of the interval; record (-) if the behavior was not occurring at the end of the interval

Scoring: Intervals with (+) / total intervals x 100 = _____ (ex: 40/50 x 100 = 80%)
